

REVIVAL UP NORTH

Joh 21:13 Jesus then cometh, and taketh bread, and giveth them, and fish likewise.

Winston White is a national pastor ministering on Guimaris Island, just beneath Iloilo City. He has a church and an orphanage and does a whole lot of public ministry. He has been in ministry for over 20 years and is worthy of anyone's support. Roger Vournas (veteran American missionary) is Bro. White's spiritual father and mentor and has a ministry not far away. Bro. White asked Bro. Vournas and myself to preach a Bible Conference in his church. I took Salvador (one of my students), and we had a very nice week away from our usual ministries. Bro. White has a beautiful piece of property for his home and church, right on a bay (photo # 1) where the waves gently lapped on the shore as I ate fish (photos 3 & 4). The fellowship with more than 100 pastors and street preachers made for a very profitable getaway. Notice in photo # 2 the local folks on a boat which is going to Guimaris Island. They are enjoying my preaching...Sal is to the extreme right of the photo. We preached on the boat, on the street in Iloilo, and in the pulpit.

ANOTHER STREET PREACHER IS BORN

In photo # 5 Pastor Jonathan (one of my pastor's class students) is experiencing a new aspect for his ministry. I am faithful to mention and teach public ministry in my pastor's (usually 15 local pastors) class but I come short of pushing them into PM. Jonathan has observed several times and then this week he took the plunge into the cold, invigorating waters of public ministry....PTL

THE ULTIMATE POLITICAL CORRECTNESS

Ok...the Bible calls them lame, halt, or crippled but those terms have long ago been relegated to a waste basket labelled "Political Incorrectness". The world is crippled too high for crutches when they trip over themselves referring to these folk as handicapped, then disabled, then mobility challenged...what next? Well, photo #6 is a sign on the wall of a hospital we now minister in; you must admit, it is new. Someone inform the Lord that the lame have become "Differently abled persons". My, aren't we considerate.

NEW OUTREACH MINISTRIES

This week we had another prison open up to our ministry, along with a public hospital. All the students go into a hospital ward to sing and pass tracts and then one preacher stays behind and preaches for 7 minutes, while the main group moves on to the next ward...until all have heard the Word. Try this in the States. We are currently ministering in public schools, a boys' home, an old folks' home, hospitals, police stations, jails for men and women, village kids' ministries, markets both indoor and outdoor, the streets, parks, and the jeepneys. Just a few minutes ago, yet another ministry opened to us. The Belen House is a Catholic day home for, believe it or not, prostitutes and pimps...I told you, you wouldn't believe it. Rev. 3:7.

Serving the Lord with great satisfaction...*Gerald Sutek*
