

# MACARTHUR LANDING REINACTMENT

We all love it when someone needs to be baptized because we make it a day of feasting and fun. There is a really nice beach resort with lots of equipment for games and sports run by the Christian organization Word of Life. We had another baptism this past Saturday and then another wedding, same couple, on Sunday. Troy Green, a missionary friend of ours near a US army base in Germany sent us military issue fatigue caps for the guys with their names on the back. We had the words "THE LORD'S ARMY" embroidered on the front in bright yellow letters. The guys really love them...I think they sleep in them. You can see the caps in the salute mode and then their names on the back. We took the beach opportunity to do a Douglas MacArthur re-enactment...even made it look old and B&W. Now all the ladies are mad at us...they want something special too. Don't we have some lovely lady students.

## JUST THROW THEM AWAY

We had two ladies visit the church a week ago Sunday because they found discarded tracts with our church info on them. This past Wed PM we had a young man, 20, come because he found a tract in the weeds along the road with our church info on it...James led Nick to the Lord before the service. Nick is holding the tract he found in the photo. Then Sunday Elvira, a lovely 22 year old lady came. She found a tract someone did not want on the seat of a jeepney. She came a long way to our church. At the invitation she came forward with tears and Ruby led her to the Lord...So.....I just told the students from now on we will no longer pass tracts out...we will just throw them away...seems there is more results...HA. By the way we had 60+ in attendance Sunday...Praise the Lord.

## TWO OLD LADIES...READY TO GO...

Two of our female students were faithful witnesses in the old-folks home this past week and two little old ladies made their final preparations for their soon departure....GLORY...GLORY...GLORY!

## PASTORS PREACHING PUBLICLY

Our pastor's class has been bitten by the public preaching bug...and now we have several who lead their churches in preaching in the many markets around the city.
